

WHAT IS *CIMPULSE*?

CIMPULSE is a New and Improved High Performance Multi-Purpose Metal Fluid offering from **CIMCOOL**.

CIMPULSE products are multifunctional and designed to allow metalworking shops to use one fluid in their entire shop. In most cases, a Cimpulse fluid can be used to consolidate all the different fluids being used within a machine shop.

CIMPULSE 51MP

CIMPULSE 51MP

A Multi-Purpose **Semi-Synthetic** High Performance, Heavy-duty fluid for machining and grinding.

STRENGTHS

- Excellent hard water stability
- Excellent rancidity control

WHEN TO USE IT:

High Performance is needed

CIMPULSE 45MP

CIMPULSE 45MP

A Multi-Purpose **Semi-Synthetic** Medium-Duty, Fluid for machining and grinding.

STRENGTHS

- Good hard water stability
- Excellent rancidity control

WHEN TO USE IT:

High Performance is needed

CIMPULSE 33MP

CIMPULSE 33MP

An Oil Free Multi-Purpose **Synthetic** Moderate-Duty, Fluid for machining and grinding.

STRENGTHS

- Very low foaming
- Excellent rancidity control

WHEN TO USE IT:

Synthetic Preference

MILPRO Sure-Way 68

MILPRO Sure-Way 68

Premium lubricating way oil designed to reduce friction on machine tool slide-ways **without traditional zinc additives**. Sure-Way 68 additives will not interfere with metalworking fluids like way oils using traditional zinc additives. MILPRO Sure-Way 68 provides trouble-free lubrication on all plain bearing slide-ways regardless of table load or way speed.
