Switch to Tork wipers and save

**Do you still use traditional rags for wiping and cleaning?
Find out how Tork wipers can save you, time, money and effort.**

Tork cleaning cloths are specifically designed for the task at hand – with no risk of surprises that can slow routine maintenance or delay production. They're always consistent in quality and size, and with a dispenser close at hand, are convenient to use. For cleaning oil, grease, solvents, fingerprints, machines, wrenches and other tools.

Pound for pound, Tork cleaning cloths work smarter

Reduce waste

Tork Industrial Cleaning Cloths weigh a fraction of an average rag. Switch to Tork and your waste handling costs can be reduced by up to 80%.

Reduce storage/freight space

Box versus bundle, packages of Tork cloths are easier to manage and store. Compressed bundles of rags use more than 4.5 times the space (when opened, even more).

Reduce solvent usage

Tork wipers are designed to release solvents evenly and are proven to reduce solvent usage by up to 40%*

up to
80%
savings in space,
freight and
disposal costs.

Cleaning time in seconds

up to
32%
less time*

Used amount of solvent (ml)

up to
40%
less solvent*
